(Senior) Solution Engineer / Product Manager (m/f/x) for DCS Systems
Focus on development of standards and support of project execution

You are at home in the world of application development and control systems engineering, you are enthusiastic about the exciting application possibilities of our complex systems. You bring a passion for imparting knowledge to others to make their tasks easier and more efficient.

Tasks:

- | Preparation of demo systems with possible product solutions
- | Definition of new standards as well as maintenance of existing solutions
- | Definition of training materials for internal employees based on new products
- | Deliver DCS Sales Support presentations
- | Assist with pre-release quality verification and manage the product's documentation
- | Provide ad-hoc application support to internal project execution teams
- | Ad-hoc internal sales consultancy and act as external customer advisor

Profile:

- | University Degree and relevant work experience in the appropriate field, e.g. Computer Science, Control and Automation Engineering, Mechanical Engineering / Automation, etc.
- | Software development experience (preferable but not mandatory)
- | DCS / SCADA market knowledge (ideally)
- | Good people and customer interaction skills
- | Preferably, with project delivery experience (incl. commissioning on site)
- | Control network protocols (working knowledge - Profibus/-net, IEC 61850, IEC 60870, Modbus, CC-Link IE)
- | Fluent in English and German – additional languages highly desirable
- | Solution-oriented approach and mind-set
- | Sure-footed and confident demeanour
- | Ability to assist existing and to excite new customers with our products
- | Willingness and desire to travel

Benefits

- | Working in an internationally active company
- | Hybrid working models, flexible working hours
- | Working independently
- | Good development prospects and a wide range of training opportunities
- | Attractive remuneration
- | Social benefits, company pension scheme
- | Employee events
- | Free parking in front of the company building
